1 Introduction

This document tells you what you need to do to deliver the qualifications:

Area	Description
Who is the qualification for?	Ideal for those with some experience in driving duties making delivery and collections looking to progress into supervision, team leading and management.
What does the qualifications cover?	It allows candidates to learn, develop and practise the skills required for employment and/or career progression in the logistics sector. This qualification covers all the essential skills and knowledge you need for a successful career as delivery driver, and covers vans, rigid and articulated lorries.
Is the qualification part of a framework or initiative?	It serves as the core component at Level 3, in the Driving Goods Vehicles Apprenticeship framework.
What opportunities for progression are there?	It allows candidates to progress into employment or to the following City & Guilds qualifications: <ul style="list-style-type: none"> • Team leading and management through the ILM. Industry specific: • International Trade and Logistics Operations (3293) • Traffic Office (3438) • Logistics Operations (3439)

Structure

Learners must achieve a total of **42** credits:

Mandatory Group	Min 10 credits
Option 1	Min 7 credits from at least 3 units in Group A and min 9 credits from at least 3 units in Group B; and
Option 2	Min 6 credits from at least 2 units in Group C and min 4 credits from at least 2 unit in Group D; and
Pathway groups	4012-30 Articulated and Drawbar Pathway Group: min 4 credits from Group E and min 2 credits from Group F; or
	4012-31 Rigid Vehicles Pathway Group: min 4 credits from Group G and min 2 credits from Group H; or
	4012-32 Van Pathway Group: min 4 credits from Group I and min 2 credits from Group J

2 Centre requirements

Approval

Centres approved to offer the qualification 3990 NVQ in Driving Goods Vehicles and the 3290 NVQ in Logistics will be automatically approved for the new City & Guilds Driving Goods Vehicles qualification. No further centre action is required.

To offer these qualifications new centres will need to gain both centre and qualification approval. Please refer to the *Centre Manual - Supporting Customer Excellence* for further information.

Centre staff should familiarise themselves with the structure, content and assessment requirements of the qualifications before designing a course programme.

Resource requirements

Physical resources and site agreements

Centres can use specially designated areas within a centre to assess. The equipment, systems and machinery must meet industrial standards and be capable of being used under normal working conditions.

Centre staffing

Staff delivering these qualifications must be able to demonstrate that they meet the following occupational expertise requirements. They should:

- be occupationally competent or technically knowledgeable in the areas for which they are delivering training and/or have experience of providing training. This knowledge must be to the same level as the training being delivered
- have recent relevant experience in the specific area they will be assessing
- have credible experience of providing training.

Centre staff may undertake more than one role, e.g. tutor and assessor or internal verifier, but cannot internally verify their own assessments.

Assessors and internal verifiers

This section summarises the quality assurance requirements that apply to QCF units and qualifications used to demonstrate competence

Assessors must:

- hold a Driving Licence i.e., Cat A or Cat B or Cat C1 or Cat C or Cat C+E, with the entitlement needed to drive the vehicle on which the assessment is being undertaken

- satisfy the external verifier that they are occupationally competent in the employment context in which assessment is undertaken
- hold a current ADR certificate when assessment takes place in the context of the movement or handling of dangerous goods
- hold or be working towards the appropriate regulatory body approved qualifications for assessment and internal verification, such as those developed by Lifelong Learning UK
- be fully conversant with the units against which the assessments and verifications are to be undertaken
- carry out assessment according to the relevant Learning and Development National Occupational Standards (*approved January 2010* these can be found on the National Occupational Standards Directory: www.ukstandards.org.uk).

Trainee Assessors must:

- have a plan, which is overseen by the relevant assessment centre, to achieve the relevant assessor qualification within an agreed timescale
- all assessment decisions made by those working towards a relevant assessor qualification must be verified by a qualified Teacher/Trainer, Assessor or an Assessor recognised by the Awarding Organisation as appropriate.

Internal Verifiers must:

- hold or be working towards a suitable Internal Verifier qualification such as one based on LLUK standards
- have sufficient and relevant technical/occupational familiarity with the units that are verified
- be fully conversant with the standards and assessment criteria in the units to be assessed
- have a working knowledge of the DVLA Driving Licence regulations relating to the candidate and the vehicle on which the assessment is being undertaken.
- must have a working knowledge of ADR certification and the risks associated with the transport of dangerous goods when assessment takes place in the context of the management, movement or handling of dangerous goods
- understand the Awarding Organisation's quality assurance systems and requirements for this qualification.

Trainee Internal Verifiers must:

- have a plan that is overseen by the recognised assessment centre, to achieve an appropriate Internal Verifier qualification within an agreed timescale

Skills for Logistics recognise that employers in the sector provide in-house training, development and assessment processes that can meet the standards set for Assessors and Verifiers. Where an employer maps its in-house training, development and assessment processes against the Assessor and Verifier National Occupational Standards and shows that all are met; subject to agreement with the Awarding Organisation and Skills for Logistics, an employer is permitted to carry out Assessment and Verification using staff members who do not hold Assessor and Verifier

qualifications. Such individuals must however, meet all other requirements for Assessors and Verifiers.

Continuing professional development (CPD)

Centres must support their staff to ensure that they have current knowledge of the occupational area, that delivery, mentoring, training, assessment and verification is in line with best practice, and that it takes account of any national or legislative developments.

Candidate entry requirements

City & Guilds does not set entry requirements for this qualification. However, centres must ensure that candidates have the potential and opportunity to gain the qualification successfully.

Age restrictions

City & Guilds cannot accept any registrations for candidates under 16 as this qualification is not approved for under 16s.

3 Delivering the qualification

Initial assessment and induction

An initial assessment of each candidate should be made before the start of their programme to identify:

- if the candidate has any specific training needs
- support and guidance they may need when working towards their qualification
- any units they have already completed, or credit they have accumulated which is relevant to the qualification
- the appropriate type and level of qualification.

We recommend that centres provide an induction programme so the candidate fully understands the requirements of the qualification, their responsibilities as a candidate, and the responsibilities of the centre. This information can be recorded on a learning contract.

Support materials

The following resource is available for this qualification:

Description	How to access
Candidate logbook	www.cityandguilds.com

4 Assessment

Candidates must:

- have a completed portfolio of evidence for each unit.

QCF units that are used to assess competence within the QCF need to be assessed and quality assured in accordance with the following additional requirements:

Learners should be enabled to complete, wherever possible, real work activities that provide both evidence of underpinning knowledge and evidence of competence to demonstrate they have met the learning outcomes and assessment criteria of the QCF unit and that they are competent in relation to the NOS.

Simulation

When a Learner is unable to complete real work activities simulation is permitted, circumstances in which simulation may take place are:

- a learner is required to complete a work activity that does not occur on a regular basis and therefore opportunities to complete a particular work activity do not easily arise,
- a learner is required to respond to a situation that rarely occurs, such as responding to an emergency situation,
- the safety of the learner and/or resources would be put at risk

When simulation is used, those who assess the learner should be confident that the simulation replicates the workplace to such an extent that learner's will be able to fully transfer their occupational competence to the workplace and real situations.

5 Units

Availability of units

The units are on The Register of Regulated Qualifications:
<http://register.ofqual.gov.uk/Unit>

Structure of units

These units each have the following:

- City & Guilds unit number
- Title
- Unit Accreditation Number (UAN)
- Level
- Credit value
- Guided Learning Hours (GLH)
- Relationship to National Occupational Standards (NOS), other qualifications and frameworks
- Endorsement by a sector or other appropriate body
- Unit aims
- Learning outcomes which are comprised of a number of assessment criteria

Unit 051

Couple and uncouple the articulated or drawbar vehicle

UAN:	H/602/2781
Level:	Level 2
Credit value:	3
GLH:	10
Relationship to NOS:	This unit is mapped directly to Skills for Logistics NOS Unit SfL 10 – ‘Couple and uncouple the vehicle’
Endorsement by a sector or other appropriate body:	This unit is endorsed by Skills for Logistics, the Sector Skills Council for the Freight Logistics Industry
Aim:	<p>What this unit is about</p> <p>This unit is about coupling and uncoupling of trailers from articulated or draw bar vehicles. It covers the selection of safe and suitable places to couple and uncouple trailers. It includes the identification and use of coupling equipment and the legal safety and operating requirements that apply.</p> <p>Who this unit is for</p> <p>This unit is relevant to drivers of articulated or draw bar vehicles or those who are responsible for articulated or draw bar vehicles within logistics organisations.</p>

Learning outcome
The learner will: 1. Know how to couple and uncouple the articulated or draw bar vehicle
Assessment criteria
The learner can: 1.1 Explain the relevant organisational policies and procedures, in relation to coupling and uncoupling the articulated or draw bar vehicle correctly, that relate to: <ul style="list-style-type: none">• health, safety and security• personal protective equipment• legal requirements• operating requirements 1.2 Explain: <ul style="list-style-type: none">• how to prepare the articulated or draw bar vehicle for coupling and uncoupling• when different connections have to be made

<ul style="list-style-type: none"> • how to connect and disconnect different connections • how to align the unit to the trailer for coupling and uncoupling • which required checks are needed • how to test the coupling • how to stow connections <p>1.3 Identify problems that can occur when coupling and uncoupling the articulated or draw bar vehicle</p> <p>1.4 Explain the appropriate action take, in order to deal with identified problems</p>

Learning outcome
The learner will: 2. Be able to couple and uncouple the articulated or draw bar vehicle
Assessment criteria
<p>The learner can:</p> <p>2.1 Follow all organisational policies and procedures, in relation to coupling and uncoupling the articulated or draw bar vehicle correctly, that relate to:</p> <ul style="list-style-type: none"> • health, safety and security • personal protective equipment • legal requirements • operating requirements • trailer braking systems <p>2.2 Prepare the articulated or draw bar vehicle for coupling and uncoupling</p> <p>2.3 Manoeuvre the unit in relation to the trailer for coupling and uncoupling</p> <p>2.4 Establish that the coupling is positioned and secured and that all necessary connections have been made</p> <p>2.5 Test that the unit and trailer systems work correctly and that the articulated or draw bar vehicle is safe to drive after coupling</p> <p>2.6 Select a safe site for uncoupling trailers from their units</p> <p>2.7 Disconnect the connections between the unit and trailer, when uncoupling</p> <p>2.8 Stow all connections according to organisational procedures and practices</p> <p>2.9 Drive the articulated or draw bar vehicle from the trailer to ensure the uncoupling has been achieved</p>

Unit 052

Contribute to the provision of customer service in logistics operations

UAN:	Y/601/7920
Level:	Level 2
Credit value:	3
GLH:	18
Relationship to NOS:	This unit is mapped directly to Skills for Logistics NOS Unit SfL 12 – ‘Contribute to the provision of customer services’

Prepare the rigid vehicle for driving

UAN:	K/602/2832
Level:	Level 2
Credit value:	2
GLH:	10
Relationship to NOS:	This unit is mapped directly to Skills for Logistics NOS Unit SfL 1 – ‘Prepare the vehicle for driving’
Endorsement by a sector or other appropriate body:	This unit is endorsed by Skills for Logistics, the Sector Skills Council for the Freight Logistics Industry
Aim:	<p>What this unit is about</p> <p>This unit is about checking a rigid vehicle before driving it on the public road. It covers the physical checks that a driver needs to make and the documentation that they need to complete to comply with legal and organisational requirements before the start of each driving duty.</p> <p>Who this unit is for</p> <p>This unit is relevant to drivers of rigid vehicles or those who are responsible for rigid vehicles within logistics organisations.</p>

Learning outcome
The learner will: 1. Know how to prepare the rigid vehicle for driving
Assessment criteria
The learner can: 1.1 Explain the relevant organisational policies and procedures, in relation to preparing the rigid vehicle for driving, that relate to: <ul style="list-style-type: none">• health, safety and security• legal requirements• operating requirements 1.2 Explain how to check that the rigid vehicle has sufficient fuel, additives and water 1.3 Explain the operation of the rigid vehicle instruments and controls to include: <ul style="list-style-type: none">• how to check the vehicles systems• how to check instruments, controls, gauges and vehicle systems• indications of electrical or mechanical problems

- 1.4 Explain the responsibilities of the driver for the rigid vehicle and the load
- 1.5 Explain the organisational procedures for reporting defects including information on previously reported problems with the rigid vehicle
- 1.6 Explain how to obtain information on previously reported problems with the rigid vehicle
- 1.7 Explain which person(s) is officially responsible for releasing the rigid vehicle
- 1.8 Identify problems that can occur when preparing the rigid vehicle for driving
- 1.9 Explain the appropriate action to take, in order to deal with identified problems

Learning outcome
The learner will: 2. Be able to prepare the rigid vehicle for driving
Assessment criteria
The learner can: 2.1 Follow all organisational policies and procedures, in relation to preparing the rigid vehicle for driving, that relate to: <ul style="list-style-type: none"> • health, safety and security • legal requirements • operating requirements 2.2 Check the vehicle and vehicle systems to ensure the rigid vehicle is legal and roadworthy 2.3 Carry out adjustments to the: <ul style="list-style-type: none"> • steering wheel • mirrors • seat for optimum control, observation and comfort 2.4 Check the rigid vehicle has sufficient: <ul style="list-style-type: none"> • fuel • additives • oil • water 2.5 Check that any ancillary equipment is in working order 2.6 Demonstrate that all documentation your organisation requires is with the rigid vehicle

vehicles and loads

- limitations of routes, vehicles, equipment and drivers
- environmental, economy and efficiency issues relating to the vehicle and load

1.3 Identify problems that can occur when monitoring vehicle movements

1.4 Explain the appropriate action to take in order to deal with identified problems

Learning outcome

The learner will:

2. Be able to monitor vehicle movements

Assessment criteria

The learner can:

2.1 Follow all organisational policies and procedures, in relation to monitoring vehicle movements, that relate to:

- health, safety and security
- environmental factors
- legal requirements
- operating requirements
- monitoring requirements
- driver hours and licencing requirements
- vehicle operators licencing requirements
- route, destination, delivery and collection schedules

2.2 Confirm the routing and scheduling information for the vehicles and loads

2.3 Demonstrate how to take action to modify routing and scheduling of vehicles and loads in response to changes in customer requirements

2.4 Demonstrate how to inform:

- relevant personnel of changes to the routing and scheduling of vehicles and loads
- customers about changes to the routing and scheduling of vehicles and loads

2.5 Demonstrate how to take action in response to:

- problems reported by drivers in relation to breakdowns or traffic
- emergencies or collisions in relation to the vehicle and load

2.6 Monitor the progress of vehicles and loads

Unit 065

Drive the rigid vehicle on public roads in a safe and fuel efficient manner

UAN:	R/602/2839
Level:	Level 2
Credit value:	6
GLH:	30
Relationship to NOS:	This unit is mapped directly to Skills for Logistics NOS Unit SfL 5 – ‘Drive the vehicle on public roads in a fuel efficient manner’
Endorsement by a sector or other appropriate body:	This unit is endorsed by Skills for Logistics, the Sector Skills Council for the Freight Logistics Industry
Aim:	<p>What this unit is about</p> <p>This unit is about the safe and fuel efficient driving of a rigid vehicle on the public road. It covers the appropriate use of vehicle controls to maximise safety and fuel efficiency. It covers knowledge of the factors that maximise fuel efficiency and the safety of other road users.</p> <p>Who this unit is for</p> <p>This unit is relevant to drivers of rigid vehicles whose duties involve driving on public roads</p>

Learning outcome
The learner will: 1. Know how to drive the rigid vehicle on public roads in a safe and fuel efficient manner
Assessment criteria
The learner can: 1.1 Explain the relevant organisational policies and procedures, in relation to driving the rigid vehicle in a fuel efficient manner, that relate to: <ul style="list-style-type: none">• health, safety and security• legal requirements• operating requirements 1.2 Explain the organisation’s policy when driving conditions vary and result in changes to the schedule 1.3 Describe how to adapt driving styles to changes in driving conditions 1.4 Explain how to adapt driving manner to suit changes in driving conditions 1.5 Explain how the actions of other road users can affect driving manner

<p>1.6 Explain how to:</p> <ul style="list-style-type: none"> • position the rigid vehicle on the road to ensure the safety of yourself and other road users • appropriately use signals • alter speed to meet different types of road conditions and requirements • use the controls of the rigid vehicle to optimize fuel consumption • assess and maintain safe separation distances • assess factors affecting safe stopping distances • use the controls of the rigid vehicle to adjust braking under different road conditions <p>1.7 Identify types of hazard that could occur on the road</p> <p>1.8 When overtaking, identify:</p> <ul style="list-style-type: none"> • when overtaking should and should not occur • the types of hazards involved • factors affecting the distance required to overtake other vehicles <p>1.9 Describe the effects severe braking could have on the load and roadworthiness of the rigid vehicle</p> <p>1.10 Identify problems that can occur when driving the rigid vehicle, on public roads, in a safe and fuel efficient manner</p> <p>1.11 Explain the appropriate action to take, in order to deal with identified problems</p>

<p>Learning outcome</p> <p>The learner will:</p> <p>2. Be able to drive the rigid vehicle on public roads in a safe and fuel efficient manner</p>
<p>Assessment criteria</p> <p>The learner can:</p> <p>2.1 Follow organisational policies and procedures, in relation to driving the rigid vehicle and load, that relate to:</p> <ul style="list-style-type: none"> • health, safety and security • legal requirements • operating requirements <p>2.2 Position the rigid vehicle and apply lane discipline to maintain the safety of yourself, other road users according to the prevailing driving conditions</p> <p>2.3 Demonstrate how to drive the rigid vehicle safely and in a fuel efficient manner to include:</p> <ul style="list-style-type: none"> • giving clear signals in good time • driving at the appropriate speed for the driving conditions • minimising fuel consumption and wear and tear • applying the braking systems, in a controlled manner, appropriate to the driving conditions, distance available, the rigid vehicle and its load • overtaking other rigid vehicles at a suitable point • take preventative action to avoid harm to any other road user

- assess and maintain safe separation distances
- assess factors affecting safe stopping distances
- use the controls of the van to adjust braking under different road conditions

1.7 Identify types of hazard that could occur on the road

1.8 When overtaking, identify:

- when overtaking should and should not occur
- the types of hazard involved
- factors affecting the distance required to overtake other vehicles

1.9 Describe the effects severe braking could have on the load and roadworthiness of the van

1.10 Identify problems that can occur when driving the van, on public roads, in a safe and fuel efficient manner

1.11 Explain the appropriate action to take, in order to deal with identified problems

Learning outcome

The learner will:

2. Be able to drive the van on public roads in a safe and fuel efficient manner

Assessment criteria

The learner can:

2.1 Follow organisational policies and procedures, in relation to driving the van and load, that relate to:

- health, safety and security
- legal requirements
- operating requirements

2.2 Position the van and apply lane discipline to maintain safety of yourself, other road users according to the prevailing driving conditions

2.3 Demonstrate how to drive the van safely and in a fuel efficient manner to include:

- giving clear signals in good time
- driving at the appropriate speed for the driving conditions
- minimise fuel consumption and wear and tear
- applying the braking systems, in a controlled manner, appropriate to the driving conditions, distance available, the van and its load
- overtaking other vans at a suitable point
- take preventative actions to avoid harm to any other road user

Principles of food safety supervision in logistics

UAN:	T/600/6584
Level:	Level 3
Credit value:	3
GLH:	25
Relationship to NOS:	This unit is mapped to Skills for Logistics NOS for Food Safety in a Logistics Environment
Endorsement by a sector or other appropriate body:	This unit is endorsed by Skills for Logistics, the Sector Skills Council for the Freight Logistics Industry
Aim:	<p>What this unit is about</p> <p>This unit is about the supervision of food safety and hygiene within logistics operations. It covers how supervisors can ensure compliance with food safety legislation, the application and monitoring of procedures and standards of personal hygiene</p> <p>Who this unit is for</p> <p>This unit is relevant to all those who supervise food safety in logistics operations</p>

Learning outcome
The learner will: 1. Understand how supervisors can ensure compliance with food safety legislation
Assessment criteria
The learner can: 1.1 Summarise the importance of food safety management procedures 1.2 Explain the responsibilities of employers in respect of food safety legislation and procedures to ensure compliance 1.3 Explain the responsibilities of employees in respect of food safety legislation and procedures to ensure compliance 1.4 Explain how food safety legislation is enforced 1.5 State where sources of information on food safety legislation can be found

Learning outcome
The learner will: 2. Understand how to apply procedures to maintain the safety of food
Assessment criteria
The learner can: 2.1 Describe methods and procedures for controlling food safety to include critical control points, critical limits and corrective actions 2.2 Justify the importance of high standards of personal hygiene 2.3 Explain procedures for cleanliness and disinfection 2.4 Describe the importance of and methods for pest control 2.5 Explain the importance of temperature control 2.6 Describe the methods used to control temperature

Learning outcome
The learner will: 3. Understand how to monitor procedures to maintain the safety of food
Assessment criteria
The learner can: 3.1 Describe the consequences for food safety from microbial, chemical, physical and allergenic hazards 3.2 State the importance of monitoring and recording critical control points 3.3 State the importance of measuring against critical limits 3.4 Describe how to monitor and record staff activities in order to maintain food safety 3.5 Describe the corrective actions to be taken in the event of critical limits being met or exceeded

Learning outcome
The learner will: 4. Understand the role of the supervisor in staff training
Assessment criteria
The learner can: 4.1 Explain the supervisor's role in continually reviewing and improving the organisation's food safety procedures 4.2 Explain the requirements for induction and on-going training of staff in food safety 4.3 Explain how to communicate management procedures for food safety effectively to colleagues

GLH:	18
Relationship to NOS:	This unit is not mapped to a National Occupational Standard as it is a cross-sector requirement
Endorsement by a sector or other appropriate body:	This unit is endorsed by Skills for Logistics, the Sector Skills Council for the Freight Logistics Industry
Aim:	This unit is aimed at people working within the Logistics Environment. It covers two main areas: <ul style="list-style-type: none">• Health Safety and Security and• The correct use of Personal Protective Equipment

Learning outcome
The learner will: 1. Understand health safety and security requirements
Assessment criteria
The learner can: 1.1 Describe organisational policies and procedures that relate to health, safety and security 1.2 Identify people and items that are vulnerable to safety and security risks in the workplace 1.3 Explain the approved precautions that can be used to minimize safety and security risks 1.4 Identify appropriate Personal Protective Equipment 1.5 Explain action that can be taken to prevent harm to individuals 1.6 Explain action that can be taken in response to accidents and emergencies 1.7 Identify the approved process for undertaking risk assessments according to organisational policies 1.8 Explain the required site protection for a particular job

Learning outcome
The learner will: 2. Be able to work safely
Assessment criteria
The learner can: 2.1 Evaluate the safety and own security risks and those that effect the team 2.2 Report any safety and security risks using organisational procedures 2.3 Wear the correct Personal Protective Equipment according to organisational requirements 2.4 Demonstrate how to inform visitors, to work areas what the correct clearly the safety and security procedures are 2.5 Demonstrate how to prevent unauthorized access to hazardous areas 2.6 Demonstrate the organisation of site protection to own team 2.7 Undertake risk assessments according to the site and organisational procedures 2.8 Evaluate safety and security that have occurred in the recent past 2.9 Make recommendations to improve site health, safety and security

Level:	Level 3
Credit value:	6
GLH:	20
Relationship to NOS:	This unit is derived from Skills for Logistics NOS Unit Sfl 33 – ‘Monitor the receipt, storage or dispatch of goods’
Endorsement by a sector or other appropriate body:	This unit is endorsed by Skills for Logistics, the Sector Skills Council for the Freight Logistics Industry
Aim:	<p>What this unit is about</p> <p>This unit is about supervising the areas and processes for receipt, storage and dispatch of goods. It deals with ensuring the correct equipment is used, that areas are safe and appropriate for the receipt of goods, and that information in relation to monitoring the receipt, storage or dispatch of goods is communicated</p> <p>Who this unit is for</p> <p>This unit is aimed at operatives in logistics operations. Operatives could, for example, be working in warehousing and storage, transport or freight forwarding</p>

Learning outcome
The learner will: 1. Know how to supervise the receipt, storage or dispatch of goods in logistics operations
Assessment criteria
The learner can: 1.1 Explain the relevant organisational policies and procedures for supervising the receipt, storage or dispatch of goods in logistics operations, that relate to: <ul style="list-style-type: none">• health, safety and security• environmental factors• special requirements• stock rotation• monitoring and testing 1.2 Explain sources of information required to determine the capacity and limitations of the storage facility

- | |
|--|
| 1.3 Describe the equipment that can be used for the receipt, storage or dispatch of the goods |
| 1.4 Identify problems that can occur when monitoring the receipt, storage or dispatch of goods |
| 1.5 Explain appropriate action when dealing with identified problems |

Learning outcome

The learner will:

- | |
|---|
| 2. Be able to supervise the receipt, storage or dispatch of goods in logistics operations |
|---|

Assessment criteria

The learner can:

- | |
|--|
| 2.1 Inspect the type, condition, quantity of the goods being received, stored or dispatched |
| 2.2 Check the storage conditions and equipment required to receive, store or dispatch the goods |
| 2.3 Organise the movement or rotation of goods to assist receiving, storing or dispatching goods |
| 2.4 Demonstrate how to use the organisations resources effectively |
| 2.5 Communicate effectively with others |
| 2.6 Complete records for supervising the receipt, storage or dispatch of goods accurately |

Unit 077

Schedule logistics operations to meet customer requirements

UAN:	K/601/7596
Level:	Level 3
Credit value:	4
GLH:	18
Relationship to NOS:	This unit is mapped directly to Skills for Logistics NOS Unit SfL 36 – ‘Schedule logistics operations to meet customer requirements’
Endorsement by a sector or other appropriate body:	This unit is endorsed by Skills for Logistics, the Sector Skills Council for the Freight Logistics Industry
Aim:	<p>What this unit is about</p> <p>This unit is about identifying the type of operation required and producing schedules to meet the customer’s needs. It covers the requirements for good planning, scheduling methods and with dealing with problems with the schedule</p> <p>Who this unit is for</p> <p>This unit is relevant to all operatives at every level in logistics operations. Operatives could, for example, be working in warehousing and storage, transport or freight forwarding</p>

Learning outcome
The learner will: 1. Know how to schedule logistics operations to meet customer requirements
Assessment criteria
The learner can: 1.1 Explain the relevant organisational policies and procedures, in relation to scheduling logistics operations to meet customer requirements, that relate to: <ul style="list-style-type: none">• health, safety and security• compliance• roles, responsibilities, information and management systems 1.2 Describe the different sources and types of information required for scheduling logistics operations to meet customer requirements 1.3 Explain the importance of good communication methods 1.4 Explain the methods and tools used for scheduling logistics operations to meet customer requirements

- | |

Unit 078

Optimise the use of logistics resources

UAN:	M/601/7597
Level:	Level 3
Credit value:	3
GLH:	15
Relationship to NOS:	This unit is mapped directly to Skills for Logistics NOS Unit Sfl 37 – ‘Optimise the use of logistics resources’
Endorsement by a sector or other appropriate body:	This unit is endorsed by Skills for Logistics, the Sector Skills Council for the Freight Logistics Industry
Aim:	<p>What this unit is about</p> <p>This unit is about identifying the appropriate resource and planning how to use it and monitoring its use to improve performance.</p> <p>Who this unit is for</p> <p>This unit is relevant for operatives working in logistics operations. Operatives could, for example, be working in warehousing and storage, transport or freight forwarding</p>

Learning outcome
The learner will: 1. Know how to optimize the use of logistics resources
Assessment criteria
The learner can: 1.1 Explain the relevant organisational policies and procedures, in relation to optimizing the use of logistics resources, that relate to: <ul style="list-style-type: none">• health, safety and security• compliance• roles, responsibilities, information and management systems• legislation and regulations 1.2 Describe the different sources and types of information required for optimizing the use of logistics resources 1.3 Explain the importance of good communication methods 1.4 Explain the types of resource used in specific logistics operations 1.5 Explain the methods used for optimizing the use of logistics resources 1.6 Explain the factors that need to be taken into account when optimizing the use of logistics resources 1.7 Explain methods for improving or developing used logistics resources

- | |
|---|
| 1.8 Identify problems that can occur when optimising the use of logistics resources
1.9 Explain appropriate action when dealing with identified problems |
|---|

Learning outcome

The learner will:

- | |
|---|
| 2. Be able to optimize the use of logistics resources |
|---|

Assessment criteria

The learner can:

- | |
|---|
| 2.1 Follow all organisational policies and procedures, in relation to optimizing the use of logistics resources, that relate to: <ul style="list-style-type: none">• health, safety and security• compliance• roles, responsibilities, information and management systems• legislation and regulations |
| 2.2 Identify the availability and demand for logistics resources in the organisation |
| 2.3 Determine the level and type of resources used for the logistics operation |
| 2.4 Use logistics resources effectively and efficiently |
| 2.5 Plan the use of logistics resources to achieve a balance between usage and performance |
| 2.6 Monitor the use of logistics resources to identify any positive or negative effects on the environment |
| 2.7 Record work according to organisational procedures |

Unit 079

Respond to problems in logistics operations

UAN:	T/601/7598
Level:	Level 3
Credit value:	3
GLH:	15
Relationship to NOS:	This unit is mapped directly to Skills for Logistics NOS Unit SfL 38 – ‘Respond to problems in logistics operations’
Endorsement by a sector or other appropriate body:	This unit is endorsed by Skills for Logistics, the Sector Skills Council for the Freight Logistics Industry
Aim:	<p>What this unit is about</p> <p>This unit is about using previous experience to deal with problems. Identifying the most appropriate response and monitoring its effectiveness</p> <p>Who this unit is for</p> <p>This unit is relevant for operatives working in logistics operations. Operatives could, for example, be working in warehousing and storage, transport or freight forwarding</p>

Learning outcome
The learner will: 1. Know how to respond to problems in logistics operations
Assessment criteria
The learner can: 1.1 Explain the relevant organisational policies and procedures, in relation to responding to problems in logistics operations, that relate to: <ul style="list-style-type: none">• health, safety and security• compliance• roles, responsibilities information and management systems 1.2 Explain the importance of good communication methods 1.3 Describe the different types of information required for responding to problems in logistics operations 1.4 Explain factors that could lead to problems in logistics operations 1.5 Explain contingency planning methods 1.6 Explain risk assessment methods used

Learning outcome

The learner will:

2. Be able respond to problems in logistics operations

Assessment criteria

The learner can:

- 2.1 Follow all organisational policies and procedures, in relation to responding to problems in logistics operations that relate to:
- health, safety and security
 - compliance
 - roles, responsibilities, information and management systems
- 2.2 Develop procedures for identifying problems
- 2.3 Respond to problems within logistics operations
- 2.4 Review problems that have occurred previously and the factors that led to them
- 2.5 Assess the impact of previous problems on the logistics operation
- 2.6 Plan the activities and resources that are required to respond to a particular problem
- 2.7 Implement the plan in response to a particular problem
- 2.8 Obtain feedback on the plan
- 2.9 Develop contingency plans
- 2.10 Implement contingency plans
- 2.11 Obtain feedback from others on the use of contingency plans
- 2.12 Review the effectiveness of the plans
- 2.13 Record work according to organisational procedures

Unit 080

Apply technology in logistics operations

UAN:	A/601/7599
Level:	Level 3
Credit value:	4
GLH:	18
Relationship to NOS:	This unit is mapped directly to Skills for Logistics NOS Unit Sfl 39 – ‘Apply technology in logistics operations’
Endorsement by a sector or other appropriate body:	This unit is endorsed by Skills for Logistics, the Sector Skills Council for the Freight Logistics Industry
Aim:	What this unit is about This unit is about using technology that is effective and efficient. Checking that colleagues know how to use technology and identifying possible improvements Who this unit is for This unit is relevant for operatives working in logistics operations. Operatives could, for example, be working in warehousing and storage, transport or freight forwarding

Learning outcome
The learner will: 1. Know how to apply technology in logistics operations
Assessment criteria
The learner can: 1.1 Explain the relevant organisational policies and procedures, in relation to applying technology in logistics operations, that relate to: <ul style="list-style-type: none">• health, safety and security• compliance• roles, responsibilities information and management systems 1.2 Explain the importance of good communication methods 1.3 Describe the different sources and types of information required for applying technology in logistics operations 1.4 Explain the resources and systems that can be applied in logistics operations 1.5 Explain the latest technological advances that may be applied in logistics operations 1.6 Explain the impact of new technology in the logistics operation 1.7 Identify problems that can occur when applying technology in logistics operations

Learning outcome

The learner will:

2. Be able to apply technology in logistics operations

Assessment criteria

The learner can:

- 2.1 Follow all organisational policies and procedures, in relation to applying technology in logistics operations, that relate to:
 - health, safety and security
 - compliance
 - roles, responsibilities, information and management systems
- 2.2 Check that the technology is applied
- 2.3 Check that maintenance schedules are undertaken
- 2.4 Check that colleagues using the technology can operate it competently
- 2.5 Monitor colleagues in the safe use of the technology
- 2.6 Identify colleagues training needs
- 2.7 Respond to training needs
- 2.8 Report on how the technology has improved logistics operations
- 2.9 Make recommendations for further improvement to logistics operations
- 2.10 Overcome any failures in the technology
- 2.11 Record work according to organisational procedures

Unit 081

Improve the performance of logistics operations

UAN:	H/601/7600
Level:	Level 3
Credit value:	4
GLH:	20
Relationship to NOS:	This unit is mapped directly to Skills for Logistics NOS Unit SfL 40 – ‘Improve the performance of logistics operations’
Endorsement by a sector or other appropriate body:	This unit is endorsed by Skills for Logistics, the Sector Skills Council for the Freight Logistics Industry
Aim:	<p>What this unit is about</p> <p>This unit is about identifying areas of the operation which can be improved. It deals with consulting colleagues to identify problems and the impact of improvements, and how to evaluate the effect improvements have on the operation.</p> <p>Who this unit is for</p> <p>This unit is relevant for operatives working in logistics operations. Operatives could, for example, be working in warehousing and storage, transport or freight forwarding</p>

Learning outcome
The learner will: 1. Know how to improve performance in logistics operations
Assessment criteria
The learner can: 1.1 Explain the relevant organisational policies and procedures, in relation to improving performance in logistics operations, that relate to: <ul style="list-style-type: none">• health, safety and security• compliance• roles, responsibilities, information and management systems 1.2 Describe the different sources and types of information required for improving performance in logistics operations 1.3 Explain improvements methods that are used in the organisation and industry 1.4 Explain methods used for evaluating improvement methods 1.5 Identify problems that can occur when improving performance in logistics operations 1.6 Explain appropriate action when dealing with identified problems

Learning outcome

The learner will:

2. Be able to improve performance in logistics operations

Assessment criteria

The learner can:

- 2.1 Follow all organisational policies and procedures, in relation to improving performance in logistics operations, that relate to:
 - health, safety and security
 - compliance
 - roles, responsibilities, information and management systems
- 2.2 Assess an area for improvement
- 2.3 Assess improvement methods appropriate for the logistics operation
- 2.4 Recommend suitable methods for improving performance
- 2.5 Develop success criteria to be used to evaluate application of the improvement methods
- 2.6 Implement the improvement methods
- 2.7 Monitor the application of the improvement methods
- 2.8 Evaluate the application of the improvement methods
- 2.9 Record work according to organisational procedures

Unit 082

Minimise the environmental impact of logistics operations

UAN:	K/601/7601
Level:	Level 3
Credit value:	3
GLH:	15
Relationship to NOS:	This unit is mapped directly to Skills for Logistics NOS Unit SfL 41 – ‘Minimise the environmental impact of logistics operations’
Endorsement by a sector or other appropriate body:	This unit is endorsed by Skills for Logistics, the Sector Skills Council for the Freight Logistics Industry
Aim:	<p>What this unit is about</p> <p>This unit is about monitoring the environmental impact of the operation and identifying ways of reducing that impact. It deals with how energy and materials are used and identifying ways of using them more effectively</p> <p>Who this unit is for</p> <p>This unit is relevant for operatives working in logistics operations. Operatives could, for example, be working in warehousing and storage, transport or freight forwarding</p>

Learning outcome
The learner will: 1. Know how to minimise the environmental impact of logistics operations
Assessment criteria
The learner can: 1.1 Explain the relevant organisational policies and procedures, in relation to minimising the environmental impact of logistics operations, that relate to: <ul style="list-style-type: none">• health, safety and security• compliance• roles, responsibilities, information and management systems• environmental protection• systems to assess environmental impact• recycling and disposal of materials 1.2 Describe the different sources and types of information required for improving performance in logistics operations 1.3 Explain environmental issues affecting the logistics sector

<p>1.4 Identify ways to reduce the effects on the environment</p> <p>1.5 Identify ways to use energy and materials more effectively and efficiently</p>

Learning outcome

<p>The learner will:</p> <p>2. Be able to minimise the environmental impact of logistics operations</p>

Assessment criteria

<p>The learner can:</p> <p>2.1 Follow all organisational policies and procedures, in relation to minimising the environmental impact of logistics operations, that relate to:</p> <ul style="list-style-type: none"> • health, safety and security • compliance • roles, responsibilities, information and management systems • environmental protection • systems to assess environmental impact • recycling and disposal of materials <p>2.2 Implement the organisation's environmental policy</p> <p>2.3 Monitor the use of energy and materials to deliver logistics operations</p> <p>2.4 Assess the environmental risks of specific logistics operations before implementation</p> <p>2.5 Report on the effects of logistics operations on the environment</p> <p>2.6 Ensure that surplus materials are disposed of or recycled correctly</p> <p>2.7 Brief visitors and sub-contractors of environmental responsibilities according to organisational policies</p> <p>2.8 Recommend ways to minimise the environmental impact of logistics operations</p> <p>2.9 Record work according to organisational procedures</p>

Unit 083

Provide leadership for your team in logistics operations

Aim:	<p>What this unit is about</p> <p>This unit is about providing leadership for your team. It deals with planning teams objectives, motivating team members, communication and steering the team through difficulties</p> <p>Who this unit is for</p> <p>This unit is relevant for team leaders, supervisors and managers working in logistics operations. Team leaders, supervisors and managers could, for example, be working in warehousing and storage, transport or freight forwarding</p>

Learning outcome
The learner will: 1. Know how to provide leadership for own team in logistics operations
Assessment criteria
The learner can: 1.1 Explain the relevant organisational policies and procedures, in relation to providing leadership for own team, that relate to: <ul style="list-style-type: none">• roles, responsibilities, information and management systems• setting objectives• equality and diversity, and inclusion• monitoring work activities 1.2 Explain different leadership styles 1.3 Explain the principles of effective communication 1.4 Explain methods for motivating, supporting and encouraging team members to achieve team objectives 1.5 Explain the importance of creating an environment of trust and mutual respect 1.6 Explain the importance of understanding difficult situations, conflicts

and disagreements and techniques for resolving these

1.7 Explain the benefits of encouraging creativity and innovation within a team

Learning outcome

The learner will:

2. Be able to provide leadership in own team in logistics operations

Assessment criteria

The learner can:

2.1 Follow all organisational policies and procedures, in relation to providing leadership in own team in logistics operations, that relate to:

- roles, responsibilities, information and management systems
- setting objectives
- equality and diversity, and inclusion
- monitoring work activities

2.2 Communicate effectively

2.3 Communicate the purpose and objectives of the team to all members

2.4 Plan the achievement of the objectives with team members

2.5 Set individual work objectives to each member of the team

2.6 Encourage team members to achieve team objectives

2.7 Provide support to team members

2.8 Motivate team members

2.9 Encourage creativity and innovation to achieve team objectives

2.10 Encourage team members to take the lead when they have the knowledge and expertise to do so

2.11 Ensure that any conflict is dealt with promptly

2.12 Monitor the activities and progress of the team

2.13 Record work according to organisational procedures

Relationship to NOS:	This unit is mapped directly to Skills for Logistics NOS Unit Sfl 46 – ‘Routing and scheduling of loads’
Endorsement by a sector or other appropriate body:	This unit is endorsed by Skills for Logistics, the Sector Skills Council for the Freight Logistics Industry
Aim:	<p>What this unit is about</p> <p>This unit is about gathering all of the information required for routing and scheduling. It involves collating information in regard to timings and destinations of consignments and the type of vehicle required to carry the goods</p> <p>Who this unit is for</p> <p>This unit is relevant to all operatives at every level in logistics operations. Operatives could, for example, be working in warehousing and storage, transport or freight forwarding</p>

Learning outcome
The learner will: 1. Know how to route and schedule loads
Assessment criteria
The learner can: 1.1 Explain the relevant organisational policies and procedures, in relation to routing and scheduling loads, that relate to: <ul style="list-style-type: none">• health, safety and security• legal requirements• operating requirements• recording systems and documentation 1.2 Explain the different modes of transport that can be used 1.3 Explain the following in relation to the vehicle and load: <ul style="list-style-type: none">• the type of load and characteristics of the consignment to be moved• different types of vehicle that can be used• vehicle weights and dimensions

<ul style="list-style-type: none"> • methods of load distribution • environmental economy and efficiency issues <p>1.4 Identify all sorting parameters relevant to the delivery or collection of the loads</p> <p>1.5 Explain sources of routing information including:</p> <ul style="list-style-type: none"> • time, destination • delivery and collection schedules <p>1.6 Explain how to deal with loads that cannot be routed and scheduled</p> <p>1.7 Explain how to report any consignments that cannot be broken down into loads</p> <p>1.8 Identify problems that can occur when routing and scheduling loads</p> <p>1.9 Explain the appropriate action to take, in order to deal with identified problems</p>

Learning outcome
<p>The learner will:</p> <p>2. Be able to route and schedule loads</p>
Assessment criteria
<p>The learner can:</p> <p>2.1 Follow all organisational policies and procedures, in relation to routing and scheduling loads, that relate to:</p> <ul style="list-style-type: none"> • health, safety and security • legal requirements • operating requirements • recording systems and documentation <p>2.2 Obtain details of the consignment, time and destination for delivery of the loads</p> <p>2.3 Collate consignments and setting out priorities and optimization of delivery and collection schedules to meet customer requirements</p> <p>2.4 Confirm the following:</p> <ul style="list-style-type: none"> • method of transport • types of vehicle and equipment to be used • the load and suitability of vehicle <p>2.5 Record and communicate information on the load to the appropriate personnel</p>

The following documents contain essential information for centres delivering City & Guilds qualifications. They should be referred to in conjunction with this handbook. To download the documents and to find other useful documents, go to the **Centres and Training Providers homepage** on www.cityandguilds.com.

Centre Manual - Supporting Customer Excellence contains detailed information about the processes which must be followed and requirements which must be met for a centre to achieve 'approved centre' status, or to offer a particular qualification, as well as updates and good practice exemplars for City & Guilds assessment and policy issues. Specifically, the document includes sections on:

- The centre and qualification approval process
- Assessment, internal quality assurance and examination roles at the centre
- Registration and certification of candidates
- Non-compliance
- Complaints and appeals
- Equal opportunities
- Data protection
- Management systems
- Maintaining records
- Assessment
- Internal quality assurance
- External quality assurance.

Our Quality Assurance Requirements encompasses all of the relevant requirements of key regulatory documents such as:

- Regulatory Arrangements for the Qualifications and Credit Framework (2008)
- SQA Awarding Body Criteria (2007)
- NVQ Code of Practice (2006)

and sets out the criteria that centres should adhere to pre and post centre and qualification approval.

Access to Assessment & Qualifications provides full details of the arrangements that may be made to facilitate access to assessments and qualifications for candidates who are eligible for adjustments in assessment.

The **centre homepage** section of the City & Guilds website also contains useful information such on such things as:

- **Walled Garden:** how to register and certificate candidates on line
- **Qualifications and Credit Framework (QCF):** general guidance about the QCF and how qualifications will change, as well as information on the IT systems needed and FAQs
- **Events:** dates and information on the latest Centre events
- **Online assessment:** how to register for GOLLA/e-volve assessments.
